

NITIN CHAVAN

Full Stack Developer | React.js | Node.js | Express.js | PostgreSQL | Redux | REST APIs
Hyderabad, Telangana, India | nitin.k.chavan1001@gmail.com | +91 9325997861 | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building web applications using React.js, JavaScript, Redux, Node.js, Express.js, PostgreSQL, and REST APIs. Skilled in developing HRMS modules covering employee onboarding, payroll processing (including hold payroll, arrear payroll, and overtime calculations), exit management, and full & final settlement. Experienced across both frontend and backend development — building responsive UI with reusable React components, integrating REST APIs, writing PostgreSQL/SQL queries, and improving application performance. Comfortable owning features end-to-end, from UI implementation to backend API development, debugging, and optimization. Open to Full Stack Developer, React.js Developer, and Node.js Developer opportunities.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST API Development

Database: PostgreSQL, SQL

Tools: Git, GitLab, Postman, VS Code, Jira

Development Skills: API Integration, Form Validation, Debugging, Performance Optimization, Reusable Components

Domain Knowledge: HRMS, Payroll, Employee Onboarding, Exit Management, Full & Final Settlement, Aadhaar Verification

Basic Exposure: MongoDB, Redis, Cron Jobs

PROFESSIONAL EXPERIENCE

Software Developer | Futurionic Private Limited

Apr 2024 – Jul 2026

Hyderabad, India

- **Developed** full stack features for an HRMS product using React.js, Redux, Node.js, Express.js, PostgreSQL, and REST APIs, working across both frontend screens and backend APIs.
- **Built** responsive frontend screens and reusable React components including forms, tables, filters, modals, and status-based UI elements used across multiple HRMS modules.
- **Integrated** frontend applications with REST APIs, handling loading states, API error responses, and form validations to keep the UI consistent and reliable.
- **Developed and maintained backend APIs and PostgreSQL queries** for HRMS modules such as employee onboarding, exit management, and payroll processing.
- **Implemented payroll-related logic** including payable-days validation, overtime calculations, hold payroll, arrear payroll adjustments, and full & final settlement.
- **Worked on the Aadhaar verification flow** as part of the employee onboarding process within the HRMS application.
- **Debugged and resolved issues** across frontend and backend layers, including form validation errors, API response handling, and payroll calculation discrepancies.
- **Improved application performance** through lazy loading, section-wise data loading, and reduction of unnecessary API calls.

Software Developer Intern | Futurionic Private Limited

Jan 2024 – Apr 2024

- **Assisted** in developing frontend components using React.js under the guidance of senior developers.
- **Learned and worked with** REST API integration, form handling, and basic PostgreSQL queries as part of onboarding into the development team.
- **Supported** testing and debugging of UI issues and contributed to small feature-level tasks on the HRMS application.

PROJECTS

HR Cosmo – Human Resource Management System

React.js, Redux, Node.js, Express.js, PostgreSQL, Tailwind CSS | Role: Full Stack Developer

- **Built** HRMS modules including employee onboarding, Aadhaar verification flow, exit management, payroll processing, hold payroll, arrear payroll, overtime calculation, retirement workflow, and full & final settlement.
- **Developed** React.js screens with Redux for onboarding forms, payroll workflows, exit requests, filters, tables, and approval actions with status-based UI handling.
- **Created reusable React components** such as form inputs, buttons, tables, modals, filters, and status badges to maintain UI consistency across modules.
- **Integrated frontend screens with backend APIs**, handling form validations, loading states, error messages, and response-based UI updates.
- **Built and maintained Node.js/Express.js APIs and PostgreSQL queries** for employee records, attendance data, payroll calculations, arrears, and deductions.
- **Implemented payroll logic** covering payable-days validation, overtime calculation, salary hold conditions, arrear adjustments, and full & final settlement.
- **Gained exposure to cron-job based scheduling** used to identify retirement-eligible employees and trigger the retirement/exit workflow.
- **Improved page load performance** on data-heavy screens using lazy loading, section-wise data loading, and reduced API calls.

Chatboard – Customer Engagement Frontend

React.js, Redux, Tailwind CSS | Role: Frontend Developer

- **Developed** frontend screens for a customer engagement dashboard, including agent panel, chat list, message thread layout, and user session panel.
- **Used Redux** to manage selected chat, active tab, and other frontend UI state.
- **Built responsive, reusable React components** for desktop and mobile views using Tailwind CSS, including notification indicators and empty-state screens.

EDUCATION

B.Tech in Mechanical Engineering

Punyashlok Ahilyadevi Holkar Solapur University | CGPA: 7.5 | Completed: 2023

Diploma in Mechanical Engineering

Maharashtra State Board of Technical Education | CGPA: 8.5 | Completed: 2020

ADDITIONAL INFORMATION

- **Comfortable working** across the full stack, from React.js/Redux frontend development to Node.js/Express.js backend APIs and PostgreSQL database work.
- **Familiar with** Git/GitLab version control, Postman for API testing, and Jira for task tracking in an agile team environment.
